MD15-1827

I rank 1827 was one of the best sires bred at Macquarie. Unfortunately he died prematurely. 1827 was an extremely deep bodied sire that stood correctly. He had an even, deep crimped, long stapled 64s fleece. 1827 had a broad masculine, soft silky muzzle and was free of blemishes.

MD13-7021 'Tom'

MD Empire 13-7021 x MD11-4838 is an impact sire having been used in 7 Australian studs (of which all studs kept sons as sires) and South America. From the proven Empire family. An exceptionally long bodied sire with the depth of barrel, spring of rib & deep twist associated with the Dohne. 7021 stands correctly & has a very good top line for a ram of his length. His outstanding feature however, is his wool quality & staple length. 7021 carries a bright, soft, deep crimping elite wool and has a masculine soft muzzle which is free of blemishes.
